Video transcript

00:00:00 so hello everyone in this video we will see what we need to do for the Vitol fat exam. so I have a lot of resources like the questions that were asked in quiz and a lot of weeks PDF that include official VIT PDFs which is available in Vitol and it is removed one day before the exam so many people wouldn't have saved that so I have the combined PDF of all the weeks so let's get into the all the things that I have. so you can score with your exam so yeah let's get into the video so let's get into the instructions

00:00:37 so in fact you have 50 questions 1 hour and this 50 question will be converted to 40 marks weightage out of 100 so you have internal six quizzes, so six quizzes 60 marks and this 40 marks will be added to that so it will be 100. so in overall you need 50 marks to pass this is because this is non-grade course , you won't get S grade or any other grade ,because you scored 98 out of 100 overall . so you just need to pause right so here there is no need of minimum marks in fat you can just get overall 50

00:01:17 last time they didn't allowed us to navigate back in the question, so in fact also probably they will disable the backward navigation so just read the instruction carefully before your exam so that you don't make mistakes .so quiz thing uh you have already known like uh this quiz instruction and stuff I have written this instruction very early ago. I guess you people have gone through that and yeah uh in this PDF what I had tried to do I combined all the six weeks questions uh into a single.Vitol FAT resources link is here <https://drive.google.com/drive/folder...>

00:01:54 PDF with the quiz questions and answers that I have provided have a lot of question and answer to mcqs that has been asked. you can go through this where I have question answer with 80% accuracy which u can see from my scores in front pages. My PDF has also index page and it is very easy to navigate through the different week quizzes , like so let's say want to go to quiz six so you just click the hyperlink in index and navigate easily. My merged / binder pdf have all the theory pdfs combined which were given in the official vit vitol pdfs.
