

## [NPTEL Forest FAT exam guide](#)

(video link url = <https://youtu.be/2d-N6Rvjm2Y?si=qLdVJ8Zw9gvkTEMa>)

### NPTEL Forest FAT exam guide video transcript

00:01

so hello everyone in this video we are going to see uh how was my neptel 2024 exam what were the patterns of the questions and how you can excel in that exam if this trend tends to continues okay so I'm going to share all of my experiences what you should do to score high and all of the things or whatever you need to know about this exam . so let's get into the video so. let's get into the guide . so in today's exam (Actual npTEL final exam) there were 50 questions to be done in 3 hours and yeah this happened two week before our Theory fats

00:43

so some of our fat Labs were clashing and all the stuffs so yeah this was the uh questions and our things and there are a few points like uh what I talk with my friends and get to notice is that 90% of the questions in final exam were exactly from assignment so exact same question exact options and just the options order with jumbled and of course it will be mixture of all the weeks so um there will be week seven coming in week two questions and you know not coming in but coming after week two question then after that week three question all the

01:18

stuff's shuffled up all right so yeah that was the thing and um if you're wondering about like for this uh like if the classes will be there like English uh you know fat lab will be there other fat Labs will be there what will be what will be the thing you should do be doing so you should approach your H first and if there are there is no such classes so you can definitely go for the fat exam to attend it and yeah uh the full day OD will be provided for the same and let's get into the next points um yeah uh in

01:53

my exam I completed the whole exam in just 8 minutes and then I Revis like three times and then I slept in the hall because uh we could go out of the hall until unless uh 1 hour 30 minutes of exam time is all it is spent all right so yeah this was my experience and stuff so yeah uh another thing you need H

ticket um black and white or colour your preference and ID proof just to give you exam okay so let's get into the next point so how to study main question is that so if this trend continues whatever

02:28

is said that 90% of the question from assignment that is 45 questions out of 50 uh you will be getting for assignment if this continues then just mug up the assignments first without any uh without any logic or like without any you know um preparing for the similar type of question the exact same question paper so first first thing you should do just mug it up so how can I help you in that so I will be sharing some of my neonic and how the things that would help me to mug it up and you know uh half an hour 1 hour uh that that I

03:04

made you know 1 hour before the fat exam which help me out and uh when I was practicing I just uh I practicing the whole McQ in a shuffled up manner in this practice test link so I got 105 so yeah I got 105 out of 120 questions correct um yeah it could have been bit higher like 8 n but I did some Ser things and stuff so yeah uh by my neonic and stuffs I can help you out to reach this 105 in a easier manner so that video I will be making up so just stay tuned till then so yeah uh so how can I help you with my

03:51

video with which will be about NX and how can you mug up and there will be a Tex test link when you click that it will open up uh side where you can actually give the uh assignment test the exact test uh just the question one question three question for the order shuffled and the options shuffled so you can just you know uh give more test and be better at that so it isn't opening as of now so I will show you a bit later so after this uh your plan should be first tackle those uh 45 questions first 0% the

04:29

question so you can get 90 out of 100 then after that if you are Masa then you can go for further study and uh try to deal with those five question to get better marks so for that you can start learning the topics around the assignment and then go to the other topics all right so this will be the um you know pathway to study and there will be some mistakes which you you shouldn't commit I did today so yeah uh so as soon as you get the Hall ticket you should be prepared uh to take that to the exam

05:06

Center so just print that don't forget it otherwise you will be in trouble you couldn't sit in the exam okay so yeah you can make two three copies to be safe and uh as soon as the Hall ticket is released you can you can uh find people with the same Center and stuffs so that you can uh share the taxi and stuff and be safe with your fans uh go go for the same exam talk about and you know the benefits all right so these are the mistakes which you shouldn't comment after I said it all right which I did

05:41

and I uh wish I could like somebody could have just told me this stuffs so like I wasted one hours around just the day before exam which killed a lot of time otherwise you know uh this number of one5 and stuff of whatever school will you're giving that could would have been better so you shouldn't do it right so let's move to resources so resources will be my notes which I will be putting after I sa the neonics and stuff and next resource will be practice test so you can use versal app to to make the

06:18

quizzes from your own assignments and you know uh you can collaborate with your friends to make it in Faster man and just use it to mug it up then after that uh there will be detail theory of those questions around the topic I will explain later on like if you can see H this test this test link is like this start practicing it will be getting weeks and stop it is not opening okay uh this around question thing uh like week one assignment this is the question this is the answer so where should youer this the should go to

06:55

the nepel book here which is around 600 pages and just find out the theory from where the question they ask the question and read about like topics around it okay so that is another thing which I will share for about my te like uh for other years like 2025 and stuffs you can make it uh for yourself with your friends okay so this book this book is off is a official book which you can download after the week 12 is released or it will be provided I guess uh from M only you can uh download it it will be

07:32

summarizing the whole video uh with slides and everything so you don't have to watch the video or if you want to go in detail stuffs okay so the book I showed and this things I showed I this quiz is not working properly as of now but yeah uh you can get an idea yeah there are weeks you can just open it all weeks combined questions you can get the sense I'm telling right so yeah all these were the just the guides and now I will be uh taking all this ponics and stuffs in my next video so stay tuned

notes used in the video

Final Exam guide

- Total 50 Qs , 3 hours in 2024 (2 week before theory FAT)
- Approximately everyone got 90+% Question from assignment (45Qs/50)
- Exact same Q , as of your assignment . Exact options. Just the order of options were jumbled and ofc Mixture of all weeks. (This happens for all theory based subjects of nptel)
- I finished all Qs in 8 minutes. And did revision 3 times and slept untill 1:30 of exam so that I can go out of hall.
- You need Hall ticket (black n white printed) and any ID proof (college id)

### **So how to study.**

- According to this trend. Just Mug up the Assignment first (no logic)
- I will help you out in my video with mnemonics and my mugging up hacks with the Test to speed up mugging.

My video - ([Mugg up with me - NPTEL Forest - 120 Qs](#))

Test Link - <https://nptel-forest-quiz.vercel.app/>

(You can create the similar thing for next years)

- Then if u want to tackle those 5/50 Qs then study in dep the whole modules, books , etc.
- You can start learning the assignments's options first (Topics around the Assignments). Then go to other topics.

### **Mistakes**

- Not printing admit card way ahead of the examination date. You cannot enter the hall without it. (have 2 copies)
- Not finding people to travel with as soon as hall ticket is release ! Coz groups get formed and get restricted at the end. (Form group as soon as u get hall ticket)

## Resources

My mug up notes (will put my onenote final notes in nug up video description)

Practice Test link - <https://nptel-forest-quiz.vercel.app/>

Detailed thoery around the assignment Q topics(to put link)

Actual nptel Book (video is explain here with all slides and transcript in better format) - official (to put link)
